Just what my daughter wanted.

Although this states it is a tab edition, the tabs only appear for the instrumental sections. The contents page list all the songs with the artist's name so you look them up on youtube or elsewhere and follow along in the book to get the timing correct. The songs include chord diagrams above the measures as well as strumming indicators. Lyrics are included. A few songs require you to tune

down a half step. Some sections show you alternative notes either lower or higher than the given melody line. Many are above the 10th fret. There are major, minor, and seventh chords.
