Super Excited for this - very cute pics.

One of my favs

good!

Just like any other adult coloring book, this one has some pages that are better than others. But THIS ONE is so addictive because it's THE MUPPETS! BRAVO to those who worked to get this one on the shelves!

I love this coloring book! The detail is really great on the characters and most of the main ones are represented at least once, if not several times, on various pictures. The book is made with nice, thick pages so even a gel pen doesn't run through. Also, there are designs on both the back and front pages of the sheets, so you certainly get your money's worth. Highly recommended, especially

as the book has a printed retail of \$15.99 and I have seen it selling for this locally in-store.

Awesome! A coloring book that is makes you feel like a kid again. I do wish that there were some more character pages rather than some of the patterned pages being repeated, but overall a great buy and a great price.

Very nice color book. I like when the designs aren't intricate--I think some books nowadays are too detailed and to me, that is a stress inducer--not a stress reliever, which is how these books are marketed. All your old Muppet friends are in here and the page weight is very, very good. I've already colored a few pages and am pleased with this product.

I am a HUGE Muppets fan, so I knew I had to have this when it came out! I am not at all disappointed! Great artwork and designs. I have colored some in and can't wait to do the rest!
