thank you for one of the best books of all times. Our daughter recently passed away and she read this book to her three sons every night. It helped her in placing a solid foundation of Christian Faith her children will always have for she was a true Christian Mother. She loved Jesus and her main love on this earth was her children. Thank you Carolyn Larsen for this book. The McAlpine Family.

Our kids look forward to reading every night before bed. This storybook bible (along with the "Little Girls Bible Storybook" for our daughters) offers a perfect fit for a wide variety of ages. The pictures help keep the younger kids' attention while the printed stories intrigue the older ones. The great feature this series provides is a framework for the parents to share things from their lives that reflect the morals of Biblical accounts. Most people don't get "the Bible" because they fail to connect the dots....stuff that happened long ago is still applicable today! What better way to demonstrate that to impressionable kids than from the mouths of their parents, drawing from their past/present experiences! The rewards are tremendous when, unprompted, your kids mention the bible story - IN ADDITION TO WHAT YOU, THE PARENTS, SHARE - in the events of everyday life. Lastly, the illustrator did our family a solid favor; we noticed every picture has an angel drawn into it somewhere. This is a wonderful tool if you see your kids starting to become distracted: "Can you find the angel?" "What character in the story is the angel nearest?"

I received this book as a baby shower gift for my son. He and I would read one story every night. I loved the discussions at the end of each chapter titled "Becoming a Man of God" and "Mom's Touch" which helps you lead the conversation about what you just read. My son is now 12 and is such a wonderful and caring young man. I know this book and that time we spent together played a part in the man he is becoming today.

We love this story book...includes most of the well-known stories in the Bible & asks good questions. Each entry also has a Bible memory verse that's short & very fitting for the lesson. The only reason I gave it 4 stars is because the stories are a little short for our 3-year-old. He could easily comprehend more detail.

The explanation and application at the end of each story good. However I do not like all the

embellishments it adds to the stories that are not actually in the Bible.

This book is very good from the perspective of accuracy, the stories are pretty short, understandable, well-written, has beautiful illustrations, and it gives some good talking points-all great. I would caution, however, that the real life aspects are too heavy (at least for our son, 4 yrs of age). For instance, the story of Cain and Abel. I didn't really want to get into the 'kill' aspect of the story and end up diverting to a discussion on killing and death - which can easily happen with our young child. So I find myself sensing the stories a bit, eg, Cain was frustrated and jealous over how good Abel was, so he hurt his brother. I do recommend the book - I really like it, but would just recommend reading ahead and developing a strategy for relaying what is appropriate for the child.

I had gotten my husband a father's and son's version that was full of bonding questions, I was hoping this one would be the same. I was really dissapointed that there were very few bonding questions

I got this for my son after reading his preschool's copy we enjoyed although he's 5 and some of the questions were above his head.
