Synopsis

Crazy Eyewitness Accounts & Bizarre True Stories Of The Paranormal Kind – Claim Your FREE Bonuses After the Conclusion! Policemen are trained to respond logically and rationally in moments of stress – they have a very stressful job wherein they are seen as de facto villains for both criminals as well as the people they are protecting. They often, to their detriment, represent the system, the ruling class causing them to not have many admirers. It is thus interesting to see the number of accounts reported by policemen that hint at a paranormal entity, as this seems to be an aberration with respect to their usual personality. At this point it is difficult to explain why human beings are so enraptured by the paranormal – perhaps it is a product of millennia of evolution that has led to us surviving, and thriving, on this planet. Perhaps we can come to a better understanding with regards to this question at the end of this book, which is an attempt to chronicle a few varied and interesting police encounters with seemingly paranormal activity. The purpose of this book is primarily as an interest piece, but also with the intention to arouse a sense of curiosity in the reader towards possible solutions to these mysteries. Both supernatural and rational conclusions to the events that will be mentioned in this book, with the intention not of foisting an opinion on the reader, but of exposing the reader to a myriad number of ways in which the supernatural is said to have influenced our world... Here Is A Preview Of What's Inside... Customer Reviews

You know, not that great. The stories are generic and not from a specific place. They could be made up for all I know. Its a lot of an unknown cop in an unknown city entered a vacant building and heard people laughing and when he investigated found nothing and found out 100 years ago children died in the house. There are three of these now. I read the first two and they were very similar.

Wrote a long review, but it got lost.

Reading this book was interesting the subject matter was great but I think the way it was projected could have been better just my opinion later

Some amusing, others heartbreaking. Enjoyed it.

Pretty good stories

... just a retelling of several of the most well known supposedly paranormal events that happen to have been witnessed by law enforcement officers. The 9/11 ghost red cross worker, the Enfield poltergeist, etc. Nothing new here sadly.

An extremely interesting book about the accounts of police officers and paranormal, strange, et al. There are some very spooky and strange, as well quite baffling experiences that have happened to our police officers in this book. The author does an excellent job at telling their accounts in a tightly written with good grammar book. I only wish there were more! I did receive a free ARC pdf of this

book in exchange for a fair review. An excellent book for all those into the paranormal, true police stories, and the scary and spooky!

This book was very interesting. I enjoy pretty much anything which deals with the paranormal. I received this book for free in exchange for an honest review, so I am going to be honest. It didn't completely hold my attention as well as some other books I have read in this same subject line. Not necessarily because the subject wasn't interesting, but I think it had more to do with the writing style. I did still give it 4 stars because it is a good book overall, if a little short. If you have any interest in the paranormal at all I am sure you will enjoy reading it.
