A Dozen A Day Book 3

Synopsis

(Willis). The Dozen a Day books are universally recognized as one of the most remarkable technique series on the market for all ages! Each book in this series contains short warm-up exercises to be played at the beginning of each practice session, providing excellent day-to-day training for the student.

Shipping Weight: 6.4 ounces (View shipping rates and policies)

Average Customer Review: 4.7 out of 5 stars 22 customer reviews

Best Sellers Rank: #49,222 in Books (See Top 100 in Books) #84 in Books > Arts & Photography > Music > Theory, Composition & Performance > Techniques #412 in Books > Arts & Photography > Music > Theory, Composition & Performance > Instruction & Study

Customer Reviews

Great book- please add book level numbers/ more coherent level suitability on cover of all books in this series. Simply color coding books is not helpful- we had to guess book level after buying pink then blue book (maybe other way round) not all books are numbered or helpful in determining level of contents. Content 5 stars, cover 0 stars. The orange book says intermediate- (also excellent content) purchased for another pianist; Only orange covered book helpful in process of elimination when guessing if we had this level book (red) already.

This whole series of book is a must if you want to teach young children or adults basic concepts and have them remember and recognize the scales and notes. The exercises are very short but help children with the staff and notes memorization. Children recognize the exercise and similar of different easily and because they are short, children feel like they are progressing. I recommend the whole series for any piano newbie. Giving it a 4 star: I wish each page had more of concept paragraph to explain the student what practice is about. This is left to the teacher while piano classes is now out of reach for most, parents want to fill in and save money/classes where they can.

This book (this is the 5th in the series) works very well for my students and every student is in the series, "A Dozen A Day". The "Red Book" is very challenging and I have 2 students that are highly motivated to begin this level...and will within the next month or so. They started in the first level ("Mini Book" which is Pink) and I credit the series for their excellent progress and excellent technique.

My children love these books to warm up their fingers. The level gradually increases by the end of the book you can realize how much you have improved and so easily. I recommend doing these books along with the step by step series. This book goes with step by step book 5

I bought this for teaching, and I was very pleased to own the digital edition instead of lugging around print books to lessons.

I use this series for my students beginning with the mini book and moving on up. They introduce new techniques in an enjoyable easy format. My students love the caricatures with each exercise. Great for building technique and strong fingers.

Love this book. Use it for teaching and it is great for beginners who have a hard time understanding the extreme importance of following correct counting and fingering. It's a delightful series and this mini book is especially useful for the very young or those who are too insecure to start with the preparatory book.

Great book for everyday practice.
