# Examples & Explanations: Criminal Law, Sixth Edition

## Synopsis

A favorite among successful students, and often recommended by professors, the unique Examples & Explanations series gives you extremely clear introductions to concepts followed by realistic examples that mirror those presented in the classroom throughout the semester. Use at the beginning and midway through the semester to deepen your understanding through clear explanations, corresponding hypothetical fact patterns, and analysis. Then use to study for finals by reviewing the hypotheticals as well as the structure and reasoning behind the accompanying analysis. Designed to complement your casebook, the trusted Examples & Explanations titles get right to the point in a conversational, often humorous style that helps you learn the material each step of the way and prepare for the exam at the end of the course. The unique, time-tested Examples & Explanations series is invaluable to teach yourself the subject from the first day of class until your last review before the final. Each guide helps you learn new material by working through chapters that explain each topic in simple language challenges your understanding with hypotheticals similar to those presented in class provides valuable opportunity to study for the final by reviewing the hypotheticals as well as the structure and reasoning behind the corresponding analysis quickly gets to the point in conversational style laced with humor remains a favorite among law school students is often recommended by professors who encourage the use of study guides works with ALL the major casebooks, suits any class on a given topic provides an alternative perspective to help you understand your casebook and in-class lectures

## Customer Reviews

With MPC and common law being a clusterf@&k that gets jumbled up all the time, this book kept it straight for me.

I have never been compelled to write a review for anything on before, and I've bought dozens if not hundreds of items here. But I feel compelled to write one for this book. I am a 1L law student studying for my 2nd semester's exams. I have used other E&E's for many other classes and found them very helpful and clear - in short, excellent summaries of the material. However, this book is TERRIBLE. I can not stress this enough. It is very, very unclear, very very INCOMPLETE, filled with useless information, neglecting of important information, and just very unhelpful. It does a terrible job. Read the other reviews and stay away from this. There have got to be much better study guides out there...

Decent.

Excellent book to help you better understand criminal law concepts! In my experience, many professors seem to teach directly from a supplement. If you find the right supplement, you've cracked the code to their teaching. My professor did not use this book (she used LexisNesix's "Understanding Criminal Law" series). However, I also had this book and it was very helpful! I would feel completely confident recommending this book to a friend.

I did not find this as helpful as listening to the lectures and performing the reading. I guess if one could attend all lectures, perform all assigned reading, handle extra-curriculars and do the additional reading it might be worth it. But I found very few people have the time to do all that. I did not find this a good substitute for the doing the assigned readings and appearing in lectures, but it can be helpful if you come across a troubling case. I found the value marginal at best.

I own all of the E&Es from the classes I have taken so far and find them all useful, except this one. I felt like this author tried too hard to prove how tricky and smart he was. A lot of the examples gave "gotcha!" explanations that most professors would never require students to know. I would have preferred questions that required me to go through the elements in a more normal way and look for broader problems in the fact patterns, not weird exceptions. Overall, this book made me paranoid looking for hidden issues that weren't in my professor's problems. Luckily I realized this before my

final and was able to find other practice problems/answers that actually helped me.

I really enjoyed the E&E books for some other classes such as Property, CivPro, Torts. But this one just confused me and made me think I wasn't understanding criminal law. Dump this book. Once I stopped reading it things made sense again. This book goes out of its way to make life difficult for you. I think some of the information is downright inaccurate. I recommend Understanding Criminal Law by Dressler instead if you are looking for a supplement. Even the questions in this book were unhelpful.

I don't even think you need the most recent edition. This definitely does the trick.
