Jewelry Making For The Mystically Inclined: Lesson 1: Versatile Beginner Projects

Synopsis

Jewelry Making for the Mystically Inclined is a series that I've been working on, in one form or another, for several years. It weaves together two of my greatest passions: jewelry making and "cosmic foo." The first volume is meant to be able to stand alone. If you just want to pick up a couple of quick projects to stock your store or sell online, or to make for your friends, this is a great place to start. Later books will break down more complex techniques. For the sake of brevity, these volumes are being created as bite-sized pieces - only 3 or 4 projects per volume. While you're waiting for the next volume, resources online abound! Play with your wire and tools, and make some beautiful things!

Customer Reviews

I am not a jewelry maker, but I am a jewelry wearer; and I found Moira's book to be very informative and helpful in what to look for when buying certain types of gemstones. Great read, easy to

understand and clear, terrific information. Can't wait for the next installment!

Photo's don't come up. Tried on my PC and phone. What good is an instructional book with out illustrations.

Can't rate it, none of the pictures in the book work.
