I still like her artwork in the book "Whose in the Forest" best, but this is still a nice addition to our toddler library. My son loved the bird book and loves this on too. My only issue is that bugs usually bring to mind insects and arachnids - not worms so the inclusion of a worm into this book was surprising. I would ave included fireflies or roly-polies instead,

This is now one of my son's favorite books. It's been a great way to introduce him to bugs!!

Super cute book. Love this series. Bright colors and artsy images.

Bought for a two year old. He loved the pics.
