Little Tiger (Mini Look At Me Books)

Synopsis

Scaled down to approximately half the size of books in the Look at Me series, this book presents the same illustrations found in the original, with a slightly abridged story, perfectly sized for little hands. These books offer child-friendly portrayals of baby animals and their mothers, and use simple language to show how the mommy animals keep their babies out of trouble. In Little Tiger, Mommy teaches her baby how to hunt, explore, stay safe, and more. Toddlers will love the pictures and the story, and will be delighted when their own Mommy or Daddy reads it to them.

GREAT DEAL

My son and I really enjoy this line of Look at Me books. He really likes listening to the stories even if he may not understand them yet. I feel that they are short enough to hold the attention of most toddlers, but great for slightly older kids, too. I love that it is a board book since I have a toddler that is particularly destructive to standard books (which is why all of them are currently in hiding). The illustrations are really nice and it was affordable (for a book that your kids are going to beat up anyway).

There is nothing in this "story" to grab the attention of child. The only thing going for this book is that it is shaped like a tiger. Seriously, this reads like a fourth grade report on tigers.. Ugh,

My son loves this series of books!!! He is only 22 months and flips through the pages "reading" them to me. He loves the bright colors and pointing out the doffered animals.

Used as the main inspiration for a "little tiger" themed baby shower. So cute!

Very cute book!

I bought a bunch of these... they are so beautiful and well written. Kind of short but I improvise and just add more "commentary" to each page.

Cute simple board book for anyone who loves tigers. My 1-6 year olds all love it.
