She received her BA in Psychology from State University of New York College at Buffalo and her MA and PhD in Social/Personality Psychology from State University of New York at Albany.

This workbook accompanies my Theories of Personalities class. The case studies are organized by theorist and each is followed by 2 sets of follow-up questions. The first focuses on applying that theorist's ideas to the case. The second goes deeper by comparing that theorist to another. This is a quality addition to the course. The cases are short, but the follow-up questions are in-depth.
