Needed it for a college class. It was the correct version I needed and it was as expected

I had to take Business Law for College and this was my text book. I was very impressed with the writing in the book, including the case studies. I really didn't know what to expect from this class and this textbook but they book exceeded my expectations. This is one textbook that I will be keeping instead of turning it back in.

Needed this for my Legal Environment and Ethics class. Even though it was not the newer edition need for class, it had all the same information in this book. Maybe a chapter title or number difference, but it got the job done.

The book arrived in a very timely manner, which is awesome because I joined the class late. However, I was expecting a new book and it came with stains at the bottom of the pages and a few other problems. For the price I am quite happy.

Trying to get Barry Manilow to sign a copy of this for me. Great read. Straightforward. Good textbook

The book to me is a master piece I have learned so many laws and legal words and phrases that i.will buy this book.

Good book, lots of great information although brief introduction to these laws. Case examples were interesting and everything about the book kept me interested to read on...

I bought this book because it was much cheaper than the latest addition but it has the same information. The price was great, the book was in good condition as promised and, the delivery was actually quicker than stated. Overall, this was a great buy.
