Suzanne S. Frucht was an Associate Professor of Physiology at Northwest Missouri State University (NWMSU). She holds baccalaureate degrees in biological sciences and physical therapy from Indiana University, an MS in biological sciences at NWMSU, and a PhD in molecular biology and biochemistry from the University of Missouri-Kansas City. For 14 years she worked full-time as a physical therapist in various health care settings, including acute care hospitals, extended care facilities, and home health. Based on her educational and clinical experience she was invited to teach medical terminology part time in 1988 and became a full time faculty member three years later as she discovered her love for the challenge of teaching. Before retiring in 2008, she taught a variety of courses including medical terminology, human anatomy, human physiology, and animal anatomy and physiology. She received the Governor's Award for Excellence in Teaching in 2003.

The layout of the book makes it easy to learn terminology. However I don't think this is the best one. The terms were all over the place. And I also didn't like how the book tries to make it fun to learn terminology. As a college student I thought it should have been more straight forward.

Good

Wasn't compatible with Kindle on my tablet, although Kindle for Android devices was available.
