Having the feature-length films fully integrated in each chapter makes for a richer experience for the students at the intermediate level. The concept works really well as a springboard for discussion and writing assignments. For me, the Avant le visionnement section with a cultural notes opener and vocabulary exercises and the Apr  s avoir visionn   section are the strongest components of the textbook. The grammar explanations are well written, and it is nice to see them fully in French in a textbook at this level. --Professor Sandra Trapani, University of Missouri St. Louis

workbook. The workbook has several Pre-viewing activities aimed at allowing students to further explore vocabulary and cultural components of the film. The Post-viewing section of the workbook models the textbook and contains General comprehension activities, Vocabulary exercises, Grammar exercises, Translation activities and the study of a Photo. A Games section provides diverse activities based on structures and concepts presented in the film and the chapter. A Culture section provides further opportunity to discuss cultural aspects raised in each chapter and film. Additionally and new to this edition each chapter includes a readings section (Lecture) with

associated questions. Finally, each chapter of the workbook concludes with a Composition designed for continuing practice of all structures in an open-ended context.
