# Reflections: A Guide To End Of Life Issues For You And Your Family

## Synopsis

I am a physician and I am dying of metastasis of renal carcinoma. As I write these words, I understand I may live a week, a month, a yearâ “perhaps two. If I beat all the odds, I may live five years. I have spent the majority of my adult life as a clinician, author, researcher, and professor. As a result, I have felt a strong impulse to write about the mental, spiritual, and practical aspects of the dying process. --This text refers to the Paperback edition.

## Customer Reviews

I really enjoyed reading this book written by someone I had known a very long time ago when we were very young, even pre-med school for him. He was a brilliant man, physician & such a loss to the medical profession @ such a young age.
