## Customer Reviews

im not gonna lie, i was having trouble in the dating game. Its not easy being geeky. this book helped highlight somethings i had trouble with. this book made me laugh and think about certain situations I've had. pretty awesome. i definitely recommend if you want a good laugh and maybe love is something you just dont have a high dexterity of.

My only complaint is how it was so heavy on references. I know, it's supposed to be "Geeky", but the author was trying too hard. The best advice in the book is to listen! Listen, rather than merely wait for your turn to speak again.

Book overall is a funny read and actually can give some nice life advice. Would recommend to anyone with time to read something nice and silly.

I don't think I was the target audience for this book (I'm a 55 year old geek). I found it too cutesy with too many pop culture references.

Given as a birthday gift, and he loved it

I already learned more in 5 min then anyone had ever taught me in my life so far! I highly recommend to the geek trying to meet that special someone!

Good read.
