Civil Procedure Stories (Law Stories)

Synopsis

Fourteen law school professors collaborated to write *Civil Procedure Stories*, which provides deeper understanding of the great civil procedure cases. Each professor wrote a short chapter on one of the cases, retelling the case in his or her own voice and by his or her own method. Each chapter includes separate sections on: Social and legal background of the case Factual background of the case Lower court proceedings in the case Final appellate disposition, including issues, decisions, reasons, and separate opinions Factual postscript to the case Immediate impact of the case on the development of the law (why the case is famous and when it became so) Continuing importance of the case today (why it is still a leading case)

Customer Reviews

Don't think it's a great supp. I would recommend Freer's civil pro over this.

This book uses a series of key cases with detailed social and legal environment and background to provide a full picture of the subject. Fully agreed with the author's approach of studying fewer cases in detail to develop full understanding and development on the subject rather than studying too many cases attempting to grasp the development of the subject by bits.

Fascinating!!! Very well written in plain language. This book made the dry subject of Civil Procedure more interesting! A good read

This book was fantastic - much better than I ever expected. Seller shipped super fast! Very nice, since this is a text book and students need their books in a hurry! Thank you!

The book was in terrible shape but was advertised as in good condition. The book itself is very interesting and would have been easier to read without all the purple ink and highlighting inside.

As everyone knows, stories are the most interesting way to present anything. I love this series of books. Not only does one understand the law a thousand times better with context, but I am much more likely to remember the case if I know the story. I have read this book and the book in the series on criminal procedure. I love law, and I intend to read all the books in this series eventually. It's like taking a course on the subject from the best professor. Of course with so many writers, the stories vary in quality. A couple of the writers achieved a boring presentation, even with a good story to tell. At least one writer had an axe to grind, but I still learned a lot from that one. The best recommendation is that I intend to read the whole series: they are that good.
