Customer Reviews

These books are great! I highly recommend these for the younger crowd that is learning how to read. The books are about half the height of the regular-sized books and have maybe 8-10 pages of short sentences. Kids that are already proficient readers probably won't get much out of these. They're easy books and take a minute or two to read. There's not much substance to them. My four year-old is highly impressed with them. He repeats after me and I wouldn't call it "reading", but it's a good first step!

I am a first grade teacher and I was looking for cute, relevant, interesting phonics books for my students for Christmas. I have 11 boys in my class, so I figured I'd get the most bang for my buck by getting a 12-book phonics set--and they all LOVE the Ninja Turtles. (I got Shopkins phonics books for the girls--check out my review for that.) These books are cute but very tiny and short for what I

had in mind. The first 6 are about short vowel sounds, and the last 6 are long vowel sounds. They have about 6 pages of text, 1-2 sentences per page, and about 3-5 words per sentence. I don't feel like it's enough of a challenge for some, but it's good for a struggling or beginning reader.

I bought these books for my 3 and 4 year olds to help them learn sight words. They love TMT and they were excited to start using these books. The only thing I'm not crazy about is the names of the turtles are so long and hard for young kids to pronounce that it throws them off when they are trying to learn the smaller words

The perfect books for new readers. These 12 books are the perfect size for small hands and for teaching reading. They are paperback with great little stories and sight words that are easily learned. The pictures are bright and colorful to hold a child's interest. They come in a convenient carrying case with handle to take anywhere. Every child will love hearing about the teenage mutant ninja turtles! Would make a great gift.

I bought these for my 3.5yo son who is always on the go. I had bought 2 other sets previously and knew he'd enjoy. The books are short enough that it kept his attention and he even asked for another. They are just right for beginning readers and for those little ones with short attention spans.

These books are a lot smaller than I was expecting. They work and my kids love them. They definitely help for beginner readers. And they come with a cute carrying case. Such a great kit To help with the reading and makes it fun and interesting for the kids as well. Very well structured.

This is the second set of books like these. My son loves these. I love the fact that there are easy words and not too many on one page. Definitely great for any child learning to read.

Reading is extra challenging for my 7 year old with autism and the task often makes him anxious and nervous. He absolutely loves these books, they have kept his interest and built his confidence this Summer.
