Queens Of Geek

Synopsis

Three friends, two love stories, one convention: this fun, feminist love letter to geek culture is all about fandom, friendship, and finding the courage to be yourself."Full of irreverent humor and in-jokes, it's geeky and funny, with a heavy dose of self-discovery. . . . Seeing girls and women uplifting, protecting, and loving each other is extremely powerful especially in the context of fandom." *Teen Vogue*"This is the geeky, queer book of our dreams."

*Seventeen*Charlie likes to stand out. She's a vlogger and actress promoting her first movie at SupaCon, and this is her chance to show fans she's over her public breakup with co-star Reese Ryan. When internet-famous cool-girl actress Alyssa Huntington arrives as a surprise guest, it seems Charlie's long-time crush on her isn't as one-sided as she thought. Taylor likes to blend in. Her brain is wired differently, making her fear change. And there's one thing in her life she knows will never change: her friendship with her best guy friend Jamie. No matter how much she may secretly want it to. But when she hears about a fan contest for her favorite fandom, she starts to rethink her rules on playing it safe. *Queens of Geek* by Jen Wilde, chosen by readers like you for Macmillan's young adult imprint Swoon Reads, is an empowering novel for anyone who has ever felt that fandom is family. Praise for *Queens of Geek*: "Seeing girls and women uplifting, protecting, and loving each other is extremely powerful especially in the context of fandom. The book deals head on with issues of mental health, body shaming, sexuality, and internet celebrity, handling them with a delicate and skillful touch."

Teen Vogue"This is the geeky, queer book of our dreams. . . . This fluffy, nerdy book is perfect for cosplayers and convention-lovers." *Seventeen*"This is one empowering and uplifting girl-power story you don't want to miss." • *PureWow*"Jen Wilde's book about two best friends—one a bisexual young woman of color, the other a young [autistic] woman . . . dealing with anxiety—will be a favorite of anyone who is a fan of geek culture. . . . This fun book about fierce friendships gives voice to a group of diverse female characters who are so defined by so much more than just their mental health and sexuality." *Bustle*"If you love bisexual characters who actually use the word bisexual, queer characters of color dating each other, geekiness, fan conventions, and realistic but adorable love stories, this book is for you."

Bookriot"Jen Wilde's book is a hilarious and insightful look into the world of fan culture; the novel is infused with various spot-on pop culture references and fan-related terminology. . . . *Queens of Geek* by Jen Wilde is a wonderful well-crafted tale of geek-laden adventures and new love. If you're looking for queer intersectional representation, strong characterization, and absorbing prose, then this is the young-adult book for you." *Lambda*

Literary

“Queens of Geek is an emotional, lively story full of characters that leap off the page and slip their hands into yours, inviting you into a world where the geeks and nerds are royalty and fandom is court. Richly realized and defiantly affirming, Queens of Geek reminds us that adventures and romances aren’t limited to archetypes but are, in fact, for all of us.”

Katherine Locke, author of *Second Position*, moderator of #GayYABookClub

The characters’ diversity provides natural opportunities to explore a number of contemporary teen issues, including race, sexual orientation, feminism, and body image. Some of the most compelling chapters are told from the point of view of Taylor, who fears change, hates crowds, and is on the autism spectrum. . . . Part of Macmillan’s crowdsourced imprint, this celebration of geek culture and fandom promotes diversity and being true to oneself.”

School Library Journal

Queens of Geek is full of book and movie references and is a fun look at the fandom convention phenomena. Taylor’s anxiety and experience with Asperger’s are treated with sensitivity. . . . Queens of Geek is a fun, quick read that will appeal to romance readers and self-proclaimed geeks.”

VOYA

Praise from the Swoon Reads community: “[Queens of Geek] was an incredibly compelling read, just because it contained a storyline I ABSORBED, and characters so diverse they were a pleasure to read! . . . Mix that with the romance, self-discovery of self-worth, and all the geeky references, this made for a perfect read! I honestly couldn’t put it down, reading late into the night to see what happened next!”

Zoie K, reader on SwoonReads.com

I love how interesting the story was and how the author addressed the characters’ diversity without glossing over it or making it all about that. . . . It reminded me a little of Fangirl.”

Lizzie, reader on SwoonReads.com

Jen Wilde is a writer, geek, and fangirl with a penchant for coffee, books, and pugs. She writes YA stories about zombies (*As They Rise*), witches (*Echo of the Witch*), and fangirls (*Queens of Geek*). Her debut series, *The Eva Series*, reached over three million reads online. When she's not writing, Jen loves binge watching her favorite shows on Netflix, eating pizza, traveling to faraway places, and going to conventions in Marty McFly cosplay. Jen lives in a sunny beachside town in Australia with her husband and their cheeky pug, Heisenberg.

If you are in the mood for a super mushy YA contemporary then this would be the absolute perfect pick for you. The story is about 3 best friends Charlie, Taylor and Jamie who are going to their first ever "SupaCon" or comic convention, they are all living in Australia so this is a really big move for them. Taylor and Charlie are the MC's of the story and there is also some cute budding romances in there. Taylor is on the autism spectrum and she has severe social anxiety. Reading through her struggles and how she overcomes them was a really interesting perspective to take for a cute romance and I enjoyed her story line. Everybody gets scared it is how we react to the fear that makes us stronger. She met new people and made friends and I enjoyed seeing that perspective play out. Which I struggle with that, I don't even go into fast food restaurants because that would mean talking to the cashiers face to face. I understood the pain and she even helped on girl through a panic attack and I believe it was unbelievably kind of her. Her love interest is Jamie and reading their adorableness play out was really sweet. I believe Jamie is Latino but it never says his nationality other than he was actually an American living in Australia, but he uses the Spanish word for grandmother, I could be wrong though. Then there is Charlie, she is YouTube famous and she has just come from a small movie that turned really big. She is scared of the limelight basically because she was in a very public relationship and it ended horribly. Then she meets Alyssa and an adorable f/f relationship ensues. This is a really dorky coming of age novel with a lot of movie references, and it is meant for people with a love of fandoms. The only problem I had with it really was there was so much inner dialogue and drama, nobody tells themselves that many times in one day that they should just be themselves. I mean even at 16 and 17 I don't think. It was a good message but it was hammered in to the point that I was skipping passages that said the same thing that had been said 2 pages before. It was cute though, and for a contemporary I really enjoyed it.

So to sum this book up its about three best friends name Jamie,Charlie and Taylor finding different

real scary reasons not to take a chance but they do any way. They end up having the time of their lives at a comic con of sorts. They all end up finding new meanings to new relationships. But the best part of all is that they learn no matter what your real friends always have your back in the end. They also learn that real love means you love someone no matter their messes. There is some romance involve between two of the friends while the third finds romance with another famous female in the book. This story is beautifully written to define friendship, love, and risk taking. As for this book, I rated it five out of five stars because it was so well written. The messages about friendship and real love was so clear and defined. The only thing is that even though all three friends are in the book, its only totally from the views of Charlie and Taylor which is cool but I wish we had a view from Jamie too. But I did love how Jen wrote about Taylor Anxiety, it was related able and real. It felt and explain how anxiety looks from a person stand point that deals with anxiety. I just love the writing through out the whole book, so much that I could not put it down. I had to force myself to put this book down to either rest my eyes or do something else. I cried though some of this book while reading it. I can't tell you enough that you really need to read this book. You especially need to read this book, if you suffer from anxiety or knows someone who does, because this will give you look into their world. I also have to add that I was totally geeking out over all of the different nerdy references. References towards the made up fandoms that were like the real fandoms, for example Harry Potter but it was renamed Firestone for the book and change a little too. I just really loved this book, and the romance didn't hurt either. The romance was super sweet and very realistic between the two couples in the book. I suggest you all go buy this book right now and read it.
