# If You Love Your Family, Save Like It: Money Management For Modern America

## Synopsis

Imagine knowing for certain when and how your financial goals will be achieved. Imagine having a plan to build true wealth while not feeling guilty about how you spend the rest of your money. Imagine being able to work half as hard at the money game while having twice as much to show for it. Growing up, Nicole Peterkin saw how her dad, a successful chemical engineer, did all the “right” things and still wasn’t living the kind of lifestyle that his multi-six-figure income could have provided. He loved his family, but he didn’t know how to save like it. Nicole is now on a mission to help you put your money to work for you and your family. In this book you’ll learn exactly why the conventional wisdom we’ve all been taught doesn’t work anymore, and how to create a strategy for your money so you can achieve your desired lifestyle both today and in the future. (Nicole Peterkin)

## Book Information

## Customer Reviews

Nicole Peterkin is a fee-based financial advisor who has built a six-figure practice in just four years. She is passionate about helping people build a plan that fits their lifestyle and not vice versa. A University of Massachusetts-Boston graduate who maintains several financial certifications and is a CFP candidate, Nicole has helped hundreds of clients improve their financial situations using practical advice and a strategy centered around their individual goals and objectives. Nicole believes financial planning isn’t rocket science. Let her show you how to leverage your resources to create the lifestyle you and your family deserve.

I got this book months back but wanted to write my experience with this book. I have to say I agree with many things in this book. I have noticed I enjoy a lot of luxury items when really I could cut back some or most to help save up some money. When I read the book I felt a bit upset at times because I thought I was doing what was best for my child. Then it made me think honestly are we doing the best for our kids by buying them toys right now instead of saving for their future. It really hit home and I must say this book is a must read for anyone who has a family trying to save money. I also loved that this book had chapter questions she thought of it all when writing his book.
