This is the second Kaplan AP study guide that I've given to my son. The first one raised his grade from a low "B" to an "A" in the course and got him a 4 on the test. This is especially helpful if the teacher is not, for whatever reason, getting the study material understood by the student or is seemingly not covering the entirety of material that is on the tests. This second Kaplan AP study guide is working just as well as the first for my son. So I do recommend it, especially for a student who is having trouble understanding or absorbing what the teacher is testing. I can't give a 5-star since I haven't read it myself, but my son might give it a 5.

I purchased this book for my son to use as a guide for his AP World History class in freshman year. The chapters in this book is an annotated version of the text book and is more interesting for my son to study than his original text book. It also has test papers that will help him to prepare for the AP test.

This book really helped me prepare for the AP World History Exam. There was tons of information and the end of the chapter quizzes helped me remember what I read in the chapters. The study sheet at the end of the book really helped me remember what I needed to know overall for the

exam. The AP World History book from Kaplan is a MUST to have!

Used it well last year. I really liked how it was summarized because it was easy to understand. I learned to appreciate it more after I finished and now in Junior year reading AMSCO (apush). This book had fairly large letters, not that heavy and most importantly seemed to know what it was talking about. I really enjoyed studying with this book.

This book provides AP students with many tools to review for the AP exam that are helpful. it goes through the material in each unit thoroughly. Thank you for putting this book together.

This helped me mentally prepare as well as take quizzes and full practice tests. Buying it sooner may have been even better.

Love the Kaplan guides for studying for AP exams. I highly recommend them.

Bought to help my son with AP test preparation. He received a 4 of 5 on his practice test prior to receiving the guide, and he felt very comfortable when he took the actual test. We are looking forward to seeing his score.
