#286 in [Books > Humor & Entertainment > Puzzles & Games > Poker](#) #345 in [Books > Business & Money > Economics > Free Enterprise](#)

Customer Reviews

What a rip-off!!!! It should be titled "Very Basic Texas Hold'em Rules". Also, some of the sentence constructs sound like the author's first language was not English.

No information, except for some basic rules of the game. Even beginner would learn nothing from this pamphlet. This publication should have been free.

Before you decide to purchase this so-called book, keep this in mind: I just read it in less than ten minutes. And I was reading slowly on purpose. It contains nothing but the basic rules and some standard tips that are available for free in countless forums and guides online. If you have to spend money for this, it is money wasted. If you get a chance to read it for free, it is time wasted. One star.

Not even the most important basics are covered in this book. Useless if you want to improve your game.

Pass this up unless you have never picked up a chip or card in your life. Definitely not the book I thought

Would have liked more but well worded and concisely written. Would have liked to see some hands go up against each other perhaps

Too basic,34 pages. Not for a player, only someone learning
