The Stargate Chronicles

Synopsis

Joseph McMoneagle is now known as the best Operational Remote Viewer in the history of the U.S. Army's Special Project--Stargate. He was the only Remote Viewer who worked one-on-one with the out-of-body pioneer Robert Monroe, and who has achieved intelligence collection results that have never been surpassed and rarely equaled. Among his achievements: He described the interior of a top secret Soviet manufacturing plant and accurately predicted a new class of ship under construction--the previously unknown Typhoon Class submarine. He sketched the location and described the thoughts and reactions of an American kidnap victim held by the Red Brigade in Northern Italy--U.S. Army General Dozier. He accurately predicted when Skylab would leave orbit and where it would impact on the Earth's surface--eleven months prior to the actual event. After conventional reconnaissance failed, he and others were able to locate a downed Soviet bomber that had been carrying nuclear materials. He achieved these results using scientifically designed and tested double-blind protocols. And in the years since his retirement he has continued to demonstrate these abilities on camera for national television in three countries. Yet he is still confronted with what he calls the "giggle factor"--the automatic response of many, including some who know better--to ridicule anything connected with "psychic stuff." Surprisingly, it was always that way, even during his Army years. Was it his largely unsuspected psychic ability that helped keep him alive in Vietnam, and aided in his invaluable contributions to the cold war effort, that made McMoneagle a first-class remote viewer? Were his abilities a natural gift, or taught? How much did he owe to his near-death experience in the 1970s? And why would he give up a safe and distinguished career as an advisor to the Commanding General of the U.S. Army Intelligence and Security Command to become Remote Viewer 001? This is his story.

Book Information

Hardcover: 328 pages

Customer Reviews

Back in 1964, 18-year-old Joseph McMoneagle joined the army to escape an unhappy family in the Miami projects. McMoneagle had shown high aptitude in intelligence tests and soon wound up in several interesting assignments in the Bahamas, West Germany and Thailand as an intelligence officer. But McMoneagle was not happy-his military career interfered with what was eventually a failed marriage, and his applications for promotion went unanswered. Still, he seemed to have a charmed life and met people who directed him along his path. In 1977, he was recruited for a top secret army project that became known as Star Gate-psychic spying on behalf of the United States. The army showed McMoneagle secret documents, based on information compiled by the Stanford Research Institute, that revealed enemy psychic spying on the United States. Willing to learn more, McMoneagle soon became immersed in the program, which was set up in some old buildings on the periphery of Fort Meade, Md., near Washington, D.C. During the 10 years that McMoneagle spent with this program, he allegedly developed an uncanny ability at "remote viewing," a process by which he was able to psychically see a targeted object, at one point seeing into a secret Soviet submarine construction facility and at another pinpointing where an American general was being held by members of Italy's Red Brigades. McMoneagle retired from this draining work in 1987, married a third time and devoted his time to freelance work, sometimes at Stanford. After the Star Gate program was revealed to the public on Nightline, McMoneagle appeared on television in America and Japan. This book (his fourth on remote viewing) is a fascinating peek into the secret world of an offbeat military intelligence program and a life lived within it. Joseph McMoneagle is now known as the best Operational Remote Viewer in the history of the U.S. Army's Special Project's;Stargate. He was the only Remote Viewer who worked one-on-one with the out-of-body pioneer Robert Monroe, and who has achieved intelligence collection results that have never been surpassed and rarely equaled. Among his achievements: He described the interior of a top secret Soviet manufacturing plant and accurately predicted a new class of ship under construction's;the previously unknown Typhoon Class submarine. He sketched the location and described the thoughts and reactions of an American kidnap victim held

by the Red Brigade in Northern Italy; U.S. Army General Dozier. He accurately predicted when Skylab would leave orbit and where it would impact on the Earth's surface; eleven months prior to the actual event. After conventional reconnaissance failed, he and others were able to locate a downed Soviet bomber that had been carrying nuclear materials. He achieved these results using scientifically designed and tested double-blind protocols. And in the years since his retirement he has continued to demonstrate these abilities on camera for national television in three countries. Yet he is still confronted with what he calls the "giggle factor"; the automatic response of many, including some who know better; to ridicule anything connected with "psychic stuff." Surprisingly, it was always that way, even during his Army years. Was it his largely unsuspected psychic ability that helped keep him alive in Vietnam, and aided in his invaluable contributions to the cold war effort, that made McMoneagle a first-class remote viewer? Were his abilities a natural gift, or taught? How much did he owe to his near-death experience in the 1970s? And why would he give up a safe and distinguished career as an advisor to the Commanding General of the U.S. Army Intelligence and Security Command to become Remote Viewer 001? This is his story. Joseph McMoneagle was Remote Viewer 001 in the U.S. Army's previously classified Stargate program, and was awarded the Legion of Merit for his contribution to various intelligence operations. He and his work have been featured in Newsweek, Time, Reader's Digest, and on ABC's Nightline and CBS's 48 Hours, and on prime-time British and Japanese television. McMoneagle is the author of Mind Trek: Exploring Consciousness, Time, and Space Through Remote Viewing (1993, 1997), The Ultimate Time Machine: A Remote Viewer's Perception of Time, and Predictions for the New Millennium (1998), and Remote Viewing Secrets: A Handbook (2000). He lives with his wife and their many "fur children" near Charlottesville, Virginia.

McMoneagle, a former member of the U.S. government's "psychic spy" unit, and arguably the best "remote viewer" in the U.S, has written a very intimate memoir. Whether you are wondering what kind of person becomes a world class psychic, or what life path could possibly lead to his recruitment in the unit, or if you want to know what it was like on the inside, you will not be disappointed. He begins with his childhood in "The Projects" in Miami -- a life dominated by alcoholic parents, violent streets, and the tragic loss of his twin sister, who exhibited similar native psychic abilities, to the misdiagnoses of psychiatric medicine. Although he was accepted into a local university, McMoneagle instead joined the Army and, based on extremely high test scores, was recruited into military intelligence. He hopscotched around the globe and eventually arrived in

Southeast Asia at the height of the Vietnam war. McMoneagle's considerable psychic talents were honed further, as his intuition would alert him to impending danger. On one particularly brutal night, those inner voices kept him moving all night long, with a constant string of near-escapes.

McMoneagle would not have survived otherwise, and those who fought with him learned to mimic his moves if they too wanted to remain safe. McMoneagle repeatedly proved himself and eventually was awarded the top spot in his specialty. At the same time, his name appeared on a list of possible recruits for the psychic unit at Ft. Meade. When he was asked to volunteer for a full time place in the unit, McMoneagle walked away from his fast track, effectively ending his military career. While the psychic unit was wildly successful, far more so than anyone anticipated, it continuously fought for funding and was mired in politics from within and without, even as every alphabet-agency in creation lined up for its services. Those who had first hand knowledge of its effectiveness have outright lied when interviewed by the press, so frightened by affiliation with such an unpopular endeavor. Everyone will find something in this book. It's a terrific read.

Joseph McMoneagle is unique, one of a kind individual, but I feel a kinship that is explained only because we share a space that lies outside the physical body as well as within it. If you don't understand that, read the book. If you do understand it, read the book. Believe every word.

Very easy read. Insightful. Looking forward to taking the course in the Monroe institute.

Great reading material, captivating information into a military project used as an intelligence gathering tool. I was fascinated by the presentation.

Amazing!

Joe is the man to hear when it comes to the subject of Remote Viewing. I have used this book as a guide in my own remote viewing techniques and overall knowledge. Joe ranks as the #1 practical guy in this field. Yes, all of this is real! Open your mind, and buy the book!

Great price and fast delivery.

I believe we are more than we seem to be
Life is in us not out of us
We are what we think we are
