House Beautiful Kitchens: Creating A Beautiful Kitchen Of Your Own

Synopsis

A beautiful, large-format follow-up to House Beautiful's Home Book. Kitchens big and small, old fashioned and coolly modern, stylish and inviting: House Beautiful presents the ultimate designs for the most loved and used room in the house. Some of the country's finest designers usher you through the kitchens they created--often their own--explaining how they arrived at their decorating choices and showcasing eye-catching options. The styles range from Farm Nouveau to quintessential Scandinavian to a bold, bright Rhapsody in Blue. Stalking the Look sections help you source everything from lamps to unique appliances, and breakout sessions focus on special issues, such as planning, color consults, and energy efficiency. Includes kitchens designed for Jonathan Adler; Jeff Lewis (star of Bravo's Flipping Out); Carole Lalli, designer and former editor-in-chief of Food & Wine magazine; James Radin, who consulted on Diane Keaton's envy-inducing kitchen in the film Something's Gotta Give; and Food Network host and The Barefoot Contessa cookbook author Ina Garten.

Lisa Cregan is a contributing writer to House Beautiful and is also the author of House Beautiful Blue (Spring 11) and House Beautiful Style 101 (Fall 11). She has been a longtime resident of Chicago, IL and now lives in Palm Beach, FL. House Beautiful's belief is that "Everyone Has a Beautiful House in Them." As a leading authority on home design and decoration, the magazine reaches 6.3 million readers every month--more than any other shelter magazine. House Beautiful helps readers achieve rooms that feel right, not just stylish; and rooms to live in, not just

showrooms. Inspired by the past, living in the present, and looking to the future, House Beautiful accompanies its readers on their quest to create the house of their dreams.

If you are thinking of renovating or designing a kitchen, this book is full of ideas and styles to consider. Some top designers kitchens are featured in here. Beautiful, thick book with the latest features in kitchens and tips on designing a kitchen.

This book is excellent! I think the people who have it lower ratings must not have read it, just looked through the pictures. It is full of ideas and it explains things thoroughly. I have about 15 kitchen books and this one has been one of the most helpful.

Extensive kitchen ideas - great book from House Beautiful

I was looking for a book full of ideas and I found it first try. More than I could have imagined.

The book was okay, but I had others that I liked more. Wish I didn't have to write more than I wanted to.

This book is a beautiful coffee table book with great photos, but in my estimation, there wasn't a lot of variety in the kitchens. Specifically, I was looking for more rustic designs, and there were a lot of white, modern-looking kitchens. I was also hoping for some design tools and layouts. Good photography, just not what I was seeking.

Great photos, and very unique ideas. A "must have" book for reference, if you are renovating / remodeling your kitchen!

Big pretty book, more like a coffee table book for design inspiration.
