Customer Reviews

If you are driving in this area then you need this map. Don't even bother looking around, this is the one you want. I've driven thousands of miles around Europe and these Michelin maps are the only ones I will buy.

We wanted to take a drive around the French Alps after a river cruise ending in Basel, Switzerland. This map, is exactly what we wanted.

This is a very useful map that is essential for planning a trip to this part of France with good scale and illustrations.

Five-star rating because there's nothing wrong with the map. We paid just over \$10 for this particular version because we thought this was the English edition, as opposed to the French edition, which we also bought for \$1.30 (with free shipping for Prime members.) The two versions are practically identical. The only English is in the translation of the legend for the map. But for the French edition,

you get two additional languages-Italian and German. So more for less money. So just get the cheapest version, whether it's the French or English edition.

Excellent for detail.
