## Customer Reviews

There is an art to telling the story, what to put in and what to leave out. Russell captures that art in these pages. His tales of the waters, their geologic origins and the human saga of what happened along their banks combine to make a rich tapestry for the paddler. ... Russell Dunn is doing us a great service, making it easier to get out paddling and to see the stories behind the scenery, giving us reasons to care. --Alan Mapes, former Director of Five Rivers Environmental Education Center in Delmar and Chief of the Bureau of Environmental Education for NYSDEC. As always Russell Dunn has included an abundance of interesting historical information and has continued to meticulously document all accessible launches both great and small. This book is a joy to read and a

compendium of useful information. I highly recommend it." --Scott S. Keller, Trails & Special Projects Director, Hudson River Valley Greenway

Great book. If you live near this section of the Dacks and you dont know any salty locals this book will point you in the direction of some great paddles.

Maps are barely legible.

good overall coverage of area

This book lists 58 different paddles in the Lake George/Saratoga/Sacandaga region. Each paddle has directions to the launch site, description of the launch site, description of the paddle (including mileage), and a brief history of the area. I have done 12 of the paddles listed in this book and found the information for each paddle to be extremely accurate. This is a must have book for anyone who paddles or wants to paddle in the Lake George/Saratoga/Sacandaga Lake area.
