Customer Reviews

Penny Caldwell became an avid desert explorer when she moved with her family to Saudi Arabia in January of 1988. As a prolific writer, she has documented with great precision their extensive travels and adventures throughout the Middle East. She is the Senior Vice President of Split Rock Research Foundation, and with her husband, Jim, gives live presentations at churches and synagogues of their discoveries and exploits.

A very nicely written work. At times I was somewhat put off by her style. As i read on I realized it was her telling their story in the best way she could, and I then could appreciate that. The story tells of strange happenings that truly were miraculous. I will buy their video ASAP, and I would like to attend one of their testimonials at a church sometime.

This book is a must read. The photographs and story line will keep you turning the pages and not wanting to put the book down. If you ever had a doubt that the Bible is truly the word of God, you need to read this book. There is no doubt that they found the true Mount Sinai. Highly recommend this book.

Being a writer myself and finding a book like "The God of the mountain" really blew me away. When

this amazing book was introduced to me through the GLC television network, I could not wait to read it. The author Penny Caldwell and her husband were interviewed by Al Cooper for over an hour and I was glued to the tv. They talked about discovering the real Mount Sinai. I must say I cheated a little after hearing many details from the interview and went directly to google earth and was flabbergasted to actually see with my own eyes everything they talked about and that gave me a great idea. As soon as I received the book, I began to read it near my computer. It was quite an adventure as Penny, her husband and their two children left the Persian Gulf and drove across Saudi Arabia to Egypt and south to the Sudan border and then back again in their vehicle named "Patrol." I followed along on google earth and as I went from chapter to chapter I felt as though I was in the vehicle with them. What an adventure and history lesson as Penny described everything they were seeing and doing. She is a gifted writer and wrote what I call a "living book." Her husband Jim is a real life Indiana Jones and sometimes comes close to disaster but just like Indie he always comes out on top. What they discovered on their 30 day trip will change the way you think about the middle east and Egypt. Even though I have been to certain parts of Africa and the middle east, Penny and her husband portray a side that few people ever see especially what they discovered at the real Mt. Sinai. There is no doubt in my mind that God was with them all the way. The book is about love, adventure, history, discovery and miracles. It is the adventure of a lifetime.

Happened to see this couple on a Christian TV program and subsequently I ordered their book. It was interesting, fun and very revealing spiritually. Gave a lot of insight into the real location of this mountain. Too bad that the ruling government in that country keeps the location patrolled and chained up with guards keeping people away from it. God evidently wanted them to find it and write about it's correct location for this day and age.

I don't ever recall reading something written so well in my life. Honestly, I thought this book was brilliantly written and tha God was definitely involved in their lives throughout their adventure, that was extremely clear. These are brave and unique people untypical of average Americans who prefer to spectate through life. This family is one of the most unique you'll ever find for their intelligent approach to travel along with a sharp mind of Penny's able to recite the experiences in such precise detail bringing the reader along for the ride. It's 2013 and I'm waiting for their movie to come out, no easy feat I'm sure.

What fun I had each time I picked up this book and read another chapter. I felt like I was putting on

my hiking gear and grabbing up my backpack to find inestimable treasures in uninhabited places. It's like a great roller coaster: you might be crying and need a tissue and wind up clutching your sides because you are laughing so hard you are just waiting for your lungs to catch up! And nothing compares to the encounters...

Very informative information and confirms other reports that I had previously seen or read.

Great book - Penny is an excellent writer. This book will take you on a great journey.
