Dance With Me: My Journey Through Cancer

Synopsis

Each time Mother drove me to Geneva to see Dr. Seely, one particular song always came over the car radio. The name of the song was "Dance with Me" by Orleans. It didn't matter what time the appointment was. It didn't matter what radio station Mom was listening to. It transcended time and space to be there for me, and let me know everything would be all right. I had always been a sickly child. I had everything from the mumps to pneumonia and back again. So, when I started getting sick in my teens, my mother just chalked it up to me being me. But strange things were happening and I couldn't figure out why. I finally made an appointment with the great and powerful Dr. Dutcher. I liked him right off the bat. He was very kind and yet very serious. He said that I had a large tumor called a glomus jugulare, or glomus vagale, which is a type of paraganglioma cancer, sometimes known as cancer of the carotid. But he also said that to determine just how far the tumor had spread and exactly how much damage it had caused, he had to order more tests.

Customer Reviews

Melinda is my neighbor. She knew I was a retired editor from New York City. So when she asked me to read the manuscript for this book, I was a bit hesitant. I figured another amateur attempt that I would have to slog through and then come up with some non-threatening criticism. I couldn't have been more pleasantly wrong. This is a remarkable account. I couldn't put it down. I wound up reading the entire manuscript in one sitting and I knew this book had to be published. It is far more than another cancer story. Melinda does not soften anything. All the lows and highs of her ordeal are colorfully and thoroughly told in a personal narrative voice. It reads like she is talking to you over

coffee. This isn't science fiction (my specialty) but there is plenty of sound medical science here. Chapters are like a blend of "ER," "Scrubs," "St. Elsewhere," and even "House." You will not be disappointed. But you may be late for work, or miss your favorite TV show.
