Mount St. Helens, A Changing Landscape

Synopsis

This Wonderful Educational Book: Mount St. Helen: A Changing Landscape by Chuck Williams is about the major snow capped landmark visible throughout the western section of the Pacific Northwest. In this book you would see Mount St. Helens as viewed by 19th century painters and by photographers from the turn of the century to the present day. With more than eighty-five photographs in full color and almost forty in black and white, this is the most inclusive visual record of the mountain ever published. Included are many photographs never before published of the 1980 volcanic activity.
