# Wings Over The Wilderness: An International Tiger Moth Safari Across South Africa, Botswana And Zambia

## Synopsis

Flying over the Okavango was breathtakingly beautiful. We were over this magnificent marshland with veins of open water that sauntered between islands of knotted trees. I flew in formation with a fish eagle for a while and at different points saw herds of buffalo, elephant and antelope. I even saw a few lechwe duck underneath the water as I flew past.'Wings over the Wilderness' provides an in-depth account of an adventure undertaken by seven De Havilland aircraft across South Africa, Botswana and Zambia in 2011. These aircraft, manufactured in the 1930s, traversed some incredible terrain, an experience which was noted by one pilot as a "modern Out of Africa". 'Wings over the Wilderness' is a re-enactment of the pioneering individuals who made their journeys across Africa during the heyday of aviation exploration in open cockpit biplanes, similar to the ones used in this trip.Told through the eyes of the organiser, Courtney Watson, Wings over the Wilderness is an enthralling text brought to life by beautiful air-to-air and wildlife photographs. This coffee table book is a treasure for anyone who has an interest in aviation or, in the wildlife of Southern Africa.
