Customer Reviews

I bought this primarily for clair de lune and I'm glad I did. It is definitely difficult, but with practice I know I will get it, and what I have mastered so far sounds beautiful and just like the original piece. I haven't done much with the other songs yet but they seem to be of about the same difficulty. All songs are familiar to the ear. Perfect for an intermediate player, or someone like me who has played on and off for years without much formal training. You can figure it out on your own but it will take some practice and patience. Arrangements like these give me the motivation to keep it up! On a side note- I'm a big fan of 's Free Super Saver Shipping deal, but if your order does not qualify you will be paying a standard shipping fee. Check the "other new and used offers" and select a different seller with a lower shipping charge. I saved a few bucks doing this. Just thought I'd share in case it helps anyone!

This has 10 classics in their original key. For \$10 a piano player can't go wrong. The notes are easy

to read, and it has a great selection of classics. If you are looking for something fun to play on the piano, this is worth your time.

Good collection of classic pieces. Most people will be at least somewhat familiar with almost all of them, even if the title doesn't ring a bell (such as Theme From Concerto #1 and Rondo Ala Turca.) They are, for the most part, intermediate level.

I hoped it would have more familiar songs. I know you only a couple of them. I have enjoyed playing two of them, but the book varies greatly in difficulty. Some of the songs are very difficult!

Intermediate level playing. Just what I was looking for.

Easy to read large print. The music varies from easy to intermediate, which is what I needed. Music arrived in excellent condition.

I have been looking for an arrangement of Rhapsody in Blue that wasn't too hard for me to learn for a long time. This arrangement is challenging for me but I can actually do it, and it sounds like the song it is supposed to sound like so it is worth the effort. I only took two years of piano when I was a teenager, although I memorized songs that were much harder than what I could read. Still, this is doable for me with some work and a little help from a more experienced pianist on some of the timing.

Great selections for an amazing price!!
