Customer Reviews

This map looks like an enlargement of the Sweden pages from Michelin Atlas book I have for all of Europe. It's OK for planning but if one plans on driving it is sorely lacking in detail. I'll wait until I get to Sweden and then get a map for the parts of country I'll actually be driving in.

The scale of this map makes it essentially useless - it covers the entirety of Sweden, but all the roads of any import are located in a very small area of the southern part of the country. Also, I found at least two instances where the highway number on the map did not match that on the ground.

This is a very general map. There are no enlarged areas of cities. It was not helpful during my trip so I ended up donating it to the rental car glove box.

I travelled to Scandinavia this summer and I wanted a good, very detailed map of Sweden showing where my tour was going. Unfortunately, this map did not. The tour director handed out a partial

AAA map showing our sites in Sweden, which was much more detailed.

Typical road map of Sweden. Used it to get a general idea of locations and distances. Thought the \$12.95 was a little high.

must have for traveling in Sweden

Its a map!!!! Very complete and easy to read.

Found it very helpful. Can't wait to use it in Sweden.
