Customer Reviews

Adrienne Schmitz is a director at the Urban Land Institute, the world's leading real estate and land use education and research institute. She lives in Washington DC.

This was a required book for my Master's course in Low-Income Housing, published by the Urban Land Institute. This is really a Handbook, and well presented, each chapter - Market Analysis, Site Selection, Financial Feasibility, etc. - are well composed, present practical examples, and resources that can be retrieved on the internet and hardcover books. (Good publishing and good delivery service!)

I have read nearly every word in this book and it is well worth the money and time spent studying it. If you are looking for answers to questions about multifamily development then this is the place to start.

good
