## **Customer Reviews**

Anyone thinking about starting small business can't find a better resource for relevant,

straightforward, and comprehensive guidance than the Entrepreneur Press startup guide series. With the increasing need for services for our aging population, there are great opportunities for entrepreneurs to start their own small or home-based business in any number of senior services niches. I recommend this guide because it's packed with truly useful and reliable information. There is no fluff and no sales pitch, just valuable information you need to know if you're going to start a business.

Was interesting read but not comprehensive. Better if focused exclusively on in-home senior care and not senior transportation, travel, relocation...

The book is helpful, but it was not giving a whole lot of information. Most information were things I already know.. It was not giving a lot of information.

Not a lot of help

I am so glad I purchased this book, it has a wealth of useful information. While reading I found myself highlighted information that I know I will need to return to for future reference. I can say that half of the book is now lighted in yellow. Great buy

I enjoyed selecting this product. It served my purpose and my immediate needs, it was informative and a perfect gift (to myself or others.).

The book discusses everything you need to know to start a small business especially business involving seniors. Very well written and easy to understand. It is a must-have for new small businesses. It was a confidence booster for me and it will be a good addition to my library.

Good publication
