Synopsis

Outdoor Recreation in America is back—and fully revised and updated, with significant new material based on current statistics from a number of sources, including the latest U.S. Census Bureau and the latest National Survey on the Environment. Now in its sixth edition, this book continues to lead the way in its comprehensive coverage of issues in this growing field. First published in 1970, Outdoor Recreation in America has had a major impact in the classroom and in the field's scholarly and professional literature. Author Clayne R. Jensen is a noted authority and pioneer in the field, and in this latest edition he is joined by Steven P. Guthrie. Dr. Guthrie is a founder and past president of the Association of Outdoor Recreation and Education and a member of the editorial committee for the Journal of Experiential Education. Together the authors take this classic text into the new century by enabling readers to understand the value and challenges of preserving and properly using existing resources for present and future generations; providing a balanced perspective between the outdoor recreation interests of individuals and the management of natural resources used for recreational purposes; and presenting timely information and discussion questions to challenge students about American outdoor recreation. The following are significant additions to this edition: -New data and figures -Greater emphasis on outdoor recreation leadership -Discussions of funding sources for natural resource protection and parks -Expanded chapters on wilderness, the national park system, national forests, and education for outdoor recreation and professional development -New or greatly revised chapters on concepts and terms, participation, history, the national park system, national forests, other land or water management agencies, state and local involvement, the role of private commercial and nonprofit providers, environmental quality, and concepts and challenges in resource management -Attention to information and trends for adventure education, programming, and leadership; outdoor environmental education; and interpretation -New student-friendly features including key points and discussion questions at the end of each chapter to help students grasp key concepts and expand their critical thinking on the issues -Extensive current references and Web sites that provide additional information and extend the learning for readers

Part I presents the meaning, concepts, history, benefits, and values of outdoor recreation. It also looks at influences and trends in participation and explores the issues and impact that lifestyle trends have on outdoor recreation. Part II focuses on natural resources, including land, water, and wildlife, and considers concepts of resource management. Part III examines the roles of state and federal agencies, including the National Park Service, USDA Forest Service, federal land and water management systems, and numerous state agencies. Part IV details the impact of local government and the private and
nonprofit sector on outdoor recreation. Part V provides a synthesis of the challenges for the 21st century in the area of resources, planning, environmental issues, and the role of outdoor education. Outdoor Recreation in America, Sixth Edition, is an essential introductory text for university courses in outdoor recreation and natural resource management. Written in a friendly style, the book includes more than 180 photos, maps, charts, graphs, diagrams, and tables. It provides both theoretical foundations and practical information so that students can gain an expansive awareness of, and insight into, the impact and role of outdoor recreation from its beginnings in America to the present.

Clayne R. Jensen, EdD, is a pioneer in the field of outdoor recreation. He has contributed more than 30 professional journal articles and authored or coauthored 16 college textbooks, including the classic Outdoor Recreation in America. Dr. Jensen has more than 25 years' experience teaching physical education and recreation management. He has been associate vice president of Brigham Young University (BYU) and the university's athletic director. From 1973 to 1991 he served as dean of the College of Health, Physical Education, Recreation, Dance, and Athletics at BYU. Dr. Jensen has been an active member of the National Recreation and Park Association (NRPA) and the American Alliance for Health, Physical Education, Recreation and Dance (AAHPERD). He has long been an avid outdoorsman who partipates in numerous activities and travels extensively to national and international scenic areas. Dr. Steve P. Guthrie, PhD, has been teaching and leading in the outdoors for more than 30 years. He is an assistant professor at Lock
Haven University of Pennsylvania. Previously, he taught in the Outdoor Recreation/Adventure Education Leadership and Outdoor Recreation Administration programs at Unity College in Maine. Dr. Guthrie received his PhD in physical education with emphasis on philosophy, psychology, sociology, and history from the University of Oregon. He is an editorial committee member for the Journal of Experiential Education and a longtime member of the Association for Experiential Education (AEE). Dr. Guthrie is also a founding member and past president of the Association for Outdoor Recreation and Education (AORE) as well as a member of the American Canoe Association, the National Recreation and Park Association (NRPA), and the Professional Ropes Course Association (PRCA).

Met my course requirements even though the class still teaches from this old book!

Great textbook for school. Nice read, if you are into this stuff

Good source about America's great outdoors and history of it.

This book is old, If your using it for class. You might want to consider updating your University. . .

Item as described. Very well satisfied to get what you supposed to get when you order online!
