Planned Collapse Of Americanism: Pres. Trump's Biggest Challenge - Surviving The Coming Amerigeddon

Synopsis

Newly-elected President Trump's promise to "drain the swamp" could turn into one of the most successful political successes ever, or bring about a surprise disaster for America. Will the global elites, the media's, the Democrats and the Deep State allow Trump to truly endanger their long fought for socialist utopia? Is President Trump a secret partner in this huge scheme? Why is every single day in Washington D.C. like a carnival on fire? Is there a huge leftist coup'e to destroy Trump from behind the scenes? Will newly-elected President Trump be blamed for the inevitable post-Obama stock market crash coming soon? Edward Glinka discloses to you his take, and the proofs to make his claims on all the above, and why history shows that we all must be very, very concerned for our country! Explained is why President Trump just might endure the same fate as J.F.K. and Abe Lincoln by bucking the Deep State, the statists and the titans of corporate globalist powers... Whom have so much to lose. This writer unveils exactly WHO the real purveyors of America's immense debts & corruptions are, including unfree/unfair trade agreements, state sponsored terrorism's, as well as the engineered booms and busts that have finally bankrupted America. After years of intensive research he has dug up their TRUE goals for you. After the reader reads the quotes taken right out of the very mouths of many world leaders, elites and our founding fathers, the reader may come to accept the reality of these sensational and well argued claims of the new world order to come. The reader will be challenged to no longer take for granted themany extremely shrewd lies that our leaders have foisted upon us all for so very long. Glinka sets out to prove how the elites have fashioned much of the world to their benefit,hidden from easy sight. Yet he offers much hope if the proper actions are taken. After years of truth digging beyond headlines, the author claims that if citizens don't quickly realize who the real enemies of freedom are, we will no longer be able to fight or stop them from accomplishing their final solution. Exposed are the proofs as to just how these scumbags have long been allowed to effectively employ psychological methods across all sections of society in order to achieve state compliances. Shown is how and why they have convinced American citizens to believe that it is fine to slowly give up rights and liberties in exchange for "safety and security", even if it means willful compliance & acceptance of the growing state's dictates. Glinka makes a convincing case how these elite leaches upon society do their dirty work by infiltrating society through deception, patience and stealth without 99% even realizing it. For some, it is uncomfortable reading, just as the real truth nearly always is. After all, "In times of universal deceit, telling the truth is a revolutionary act!" This is required reading, especially for the young who must learn to adapt to the current reality of the new anti-God, pro-satanist world they are entering. Even with all this, he amazingly reveals that the best of America is set to take

place if citizens become far more pro-active and demanding! Be ready for a wild, educational and informative ride!

Edward Glinka has been a serious American history analyst and truth digger into American and world affairs for over 30 years. At the risk of being politically incorrect or too truthful for brainwashed masses, the man writes unvarnished truths about why America is at such a dangerous crossroads no matter who is elected to office. Reversing America's decline is his passion while the good of humanity is his driver. His many years of deep research has always been focused on exposing the real perpetrators behind America's perilous decline on so many fronts. Employing his rare ability to uncover many of the little covered anti-American groups, politicians, activists and power figures behind America's decline is his specialty. Rather than looking at Americana as infallibly right 100 % of the time as many other authors such as Mark Levin attempt, he has the uncanny ability to prove the strength and weakness of both sides of the isle. Offering unvarnished, uncomfortable names and examples, his ability to offend the enemies of freedom is so very rare, yet badly needed. Putting the pieces together over years of research, he exposes exactly who and how the media's and government have colluded to actively manipulate and lie about nearly everything we read and hear in order to change our perceptions, our sense of what is real and what isn't. Today, he warns that the one world order preparations are nearly complete irregardless of the daily headlines. Glinka reveals why most Americans aren't allowed to understand who the enemies of freedom are, their

deceptive techniques, the end game being played behind the scenes. Yet he offers much evidence that the great American people have what it takes to turn back what seems inevitable!

Have you been wondering "What has happened to the United States of America that I grew up in?" "What happened to our economy?" "Why can I work hard and make a decent living today?" "Is there a positive future for my children and grandchildren here in the U.S.?" If you have, then Ed Glinka's book *Planned Collapse of Americanism* is a must read. This book offers a wealth of researched data that clearly concludes that our government and global elitists are the reason that we are in the mess that we are in now. There are a group of global elitists who have been working behind the scenes for decades to undermine the fabric of our society that the signers of the Constitution worked so diligently to define and hoped that we, as their descendants, would be able to hold on to. Unfortunately because these nefarious powers have infiltrated our government we should be very concerned about the "enemy within". We are just a generation away from no longer being the greatest nation on God's Green Earth. The case is made in this book that the big state needs to be defeated and they need to be defeated now. Mr. Glinka recommends we return to the principles of smaller government and fiscal responsibility before it is too late. I don't want to divulge any more details of the book but I do want to highly recommend that you read it and decide what you and your family need to do to stem the tide and to protect yourselves in the coming years.

Fantastic and informative. Ed has really given us a look at what is going on around us. Things that we could never imagine are happening right now. Hopefully President Trump is aware of the "New World Order" and can do something to put a stop to it. Thank you again Ed.

Very informative and a real eye opener. All Americans should prepare and fight this deceptive takeover of America. We are losing our freedoms and money by these crooked bankers and elected officers. Donald Trump is our only hope and Making America Great Again! Ed is a great writer Betty A. De Boer

Awesome book, incredible information brought together in a way that the main stream doesn't put out there. Hey the rest of the story.

Shouldn't this book come with a warning label? "Caution: contains conspiracy theories that could be

harmful to your intelligence Harmful side-effects include paranoia, mistrust of others different than oneself, and erosion of belief in democratic government. Must be taken only with a strong dose of healthy skepticism, and never in combination with blind faith in some strong leader Readers, this book could wash your brain beyond all recognition of reality."

I refuse to legitimize a narcissistic author who doesn't know that "irregardless" is not a word that should be used in formal writing or speech- which I am quite sure Glinka believes this piece of jumbled mess to be. With all of all the insane, informal, uninformative rants, I wish I could give this trash 1/10 star: a pity star. Glinka can spell much better than Trump but his sentence structure is horrific. Stick to coloring your nose shades of brown & orange. You're much better at it.
