Customer Reviews

Great Law Dictionary for QUICK REFERENCES or law students who're just starting school. This dictionary has under 4,000 legal terms and definitions so keep that in mind before buying. A good temporary solution or quick reference dictionary at best.

I am a practicing trial attorney and use this dictionary when on the go. The definitions it contains are legally sound and reliable. It is a great buy for anyone working in the law or related fields. Adolfo Del Castillo, Miami, Florida.

Should you have any interest in the law -- and who among us does not? -- this handybook is an absolute must. It is smaller, and therefore less comprehensive, than the Black's Law Dictionary, but for that reason it is easier to use and carry with you. There are, I found, few topics left uncovered -- most of them in U.S. Constitutional Law -- but in all other areas the book is extremely valuable.

perfect for what I needed it for

This is the one I recommend to my first year law students every year.

Excellent condition. As described. Quick shipping. Would order again!

The book was in decent condition and it feeds the purpose of what is required for my course this semester.
